Studio Notes/Rules:

- Vista Point Studios operates in a communal building. The shooting space can be victim to ongoing noise throughout the day and there for is not a primary spot for recording sound.
- With Neighbors also comes the responsibility of respect and therefore noise within building should be considered. There is little tolerance for abuse of noise and lack of respect for the community.
- Music Videos: we provide playback speakers that have more than enough volume for performance playback. But we ask that you do not plug in amplifiers or play drum kits to the full potential.
- The space is located on the second floor without an elevator. This should be noted.
- the space has four walls and things with in it. If they are not your things they are not to be touched.
- There is no shooting in the common areas outside of the studio.
- NOTE: We regret state that Vista point is not wheelchair accesible
